

Press Release

CTH D Pavement Replacement

City of New London and Town of Lebanon

Waupaca County forces, and their subcontractors, will begin work on CTH D (North Shawano Street) next Monday, July 13th. CTH D between Northridge Drive and USH 45 will be closed throughout the project with a designated detour of USH 45 to STH 54 to CTH D. The project is anticipated to take 4 – 5 weeks to complete.

Work will involve removing the existing asphalt over concrete on the south portion of the project (Northridge Drive to Spurr Road) and rubblization of the concrete underneath. On the north end, the existing pavement and base course will be reclaimed. Both sections will be shaped, curb & gutter added at the Spurr Road, CTH T and Old USH 45 intersections, the roadway paved and shouldered.

If there are any questions, please contact Jason Hassler, Project Engineer, with Kapur & Associates at 715-584-3300.
