

*"Reflecting the Pride"*

# City of New London

---

Lou Leone  
City Administrator

FOR IMMEDIATE RELEASE  
April 2, 2020

All City buildings will remain closed to the public through Friday, April 24<sup>th</sup> as we continue to monitor the COVID-19 pandemic. These closure dates may be extended as we monitor directives/recommendations from State and County health partners.

During the facility closures, the public will be able to schedule an appointment to perform the following actions:

- Register to vote
- Cast absentee ballots
- Submit building plans/permits/inspections

To make an appointment, please contact the City Office at 920-982-8500 as staff will be happy to assist you. Citizens who are comfortable casting absentee ballots via mail are encouraged to do so by calling the City Office and asking for details. Anyone needing to make payments to the Utility Department can do so online or through the drop box located at the front of the Utility Office. You can also drop off city utility payments in the drop box located at the front of the City Office.

We want to ensure our residents and businesses that all essential services will be maintained throughout the extended facility closures. Please see additional information by department listed below:

- Emergency services relating to Police and Fire will remain unchanged. Each of these departments may be changing operations for non-emergency situations to best protect responders and the individuals they come into contact with.
- Public works operations will continue as normal. This includes electric, water and sewer utilities. Operations deemed non-essential may be put on hold to mitigate contact between crew members and the public. Anyone with problems relating to these services during this time will still be serviced.
- Senior Van Service will run for essential needs.

We will continue to provide updates as they arise. As always, we want to thank our residents and businesses for their cooperation.

Lou Leone, City Administrator
